The **cosmoFondue** manifesto

- During the last few decades, cosmology has made remarkable progress, and yet, **for each solved puzzle, several new questions open up** and add to the many unexplained mysteries about our cosmic history;
- We believe that it is **crucial to combine the expertise of the whole cosmological community** to make the most out of the new high-precision measurements;
- **We aim at fostering the dialogue between the different generations of scientists**, such that each participant can contribute with their expertise while gaining **new insights from the exchange with the community**.

Schedule and infos

We kindly ask you to:

- Look at the timetable and guidelines on the [conference website](#): 15 + 5 mins (25 + 5 introductory talks)
- PDF is preferred
- Give a **flash introduction of yourselves** at the beginning of your talk
- Come 5/10 mins before the beginning of the whole session to check your slides
- Zoom connection (**not recorded**): [link here](#)
- Create a good environment for everyone

While new discoveries in cosmology have revolutionized our understanding of the Universe over the past decades, many unresolved mysteries remain, such as the nature of dark energy or the physical processes occurring in the earliest stages of history. To resolve these questions in light of new observations, joint efforts across the whole community are needed.

This conference aims at offering an occasion for scientists across all fields of cosmology to interact in an engaging and inclusive atmosphere, and to reflect on promising new research directions. A special focus is put on fostering exchange among junior and senior researchers.

Confirmed speakers:

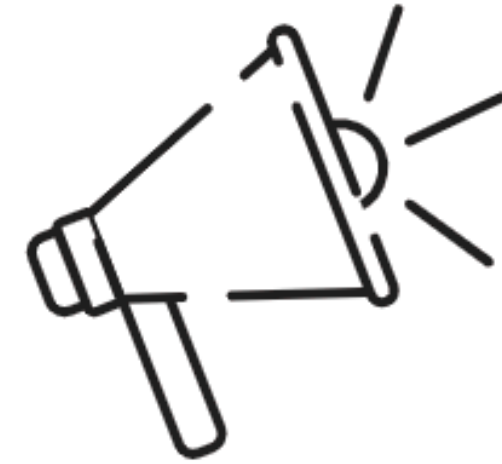

- Luca Amendola
- Camille Bonvin
- Chiara Caprini
- Anthony Challinor
- Eleonora di Valentino
- Daniel G. Figueroa
- Ruth Durrer
- Julien Lesgourgues
- Michele Maggiore
- Arttu Rajantie
- Fabian Schmidt
- Matteo Viel

The event is planned to be in-person, with the number of participants limited. The registration and the

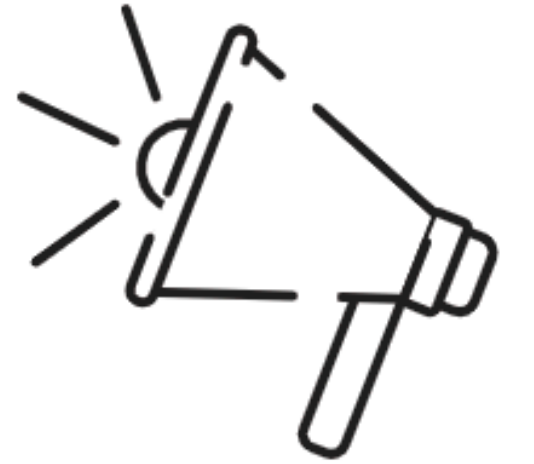

Poster session

Today

- At 18.00 in the entrance hall of École de Physique
- Posters will be on display every day
- Remember to give us your poster **before lunch today!**
- Vote for your favourite one! **Votes are open until Thursday at 13.00!**

Vote

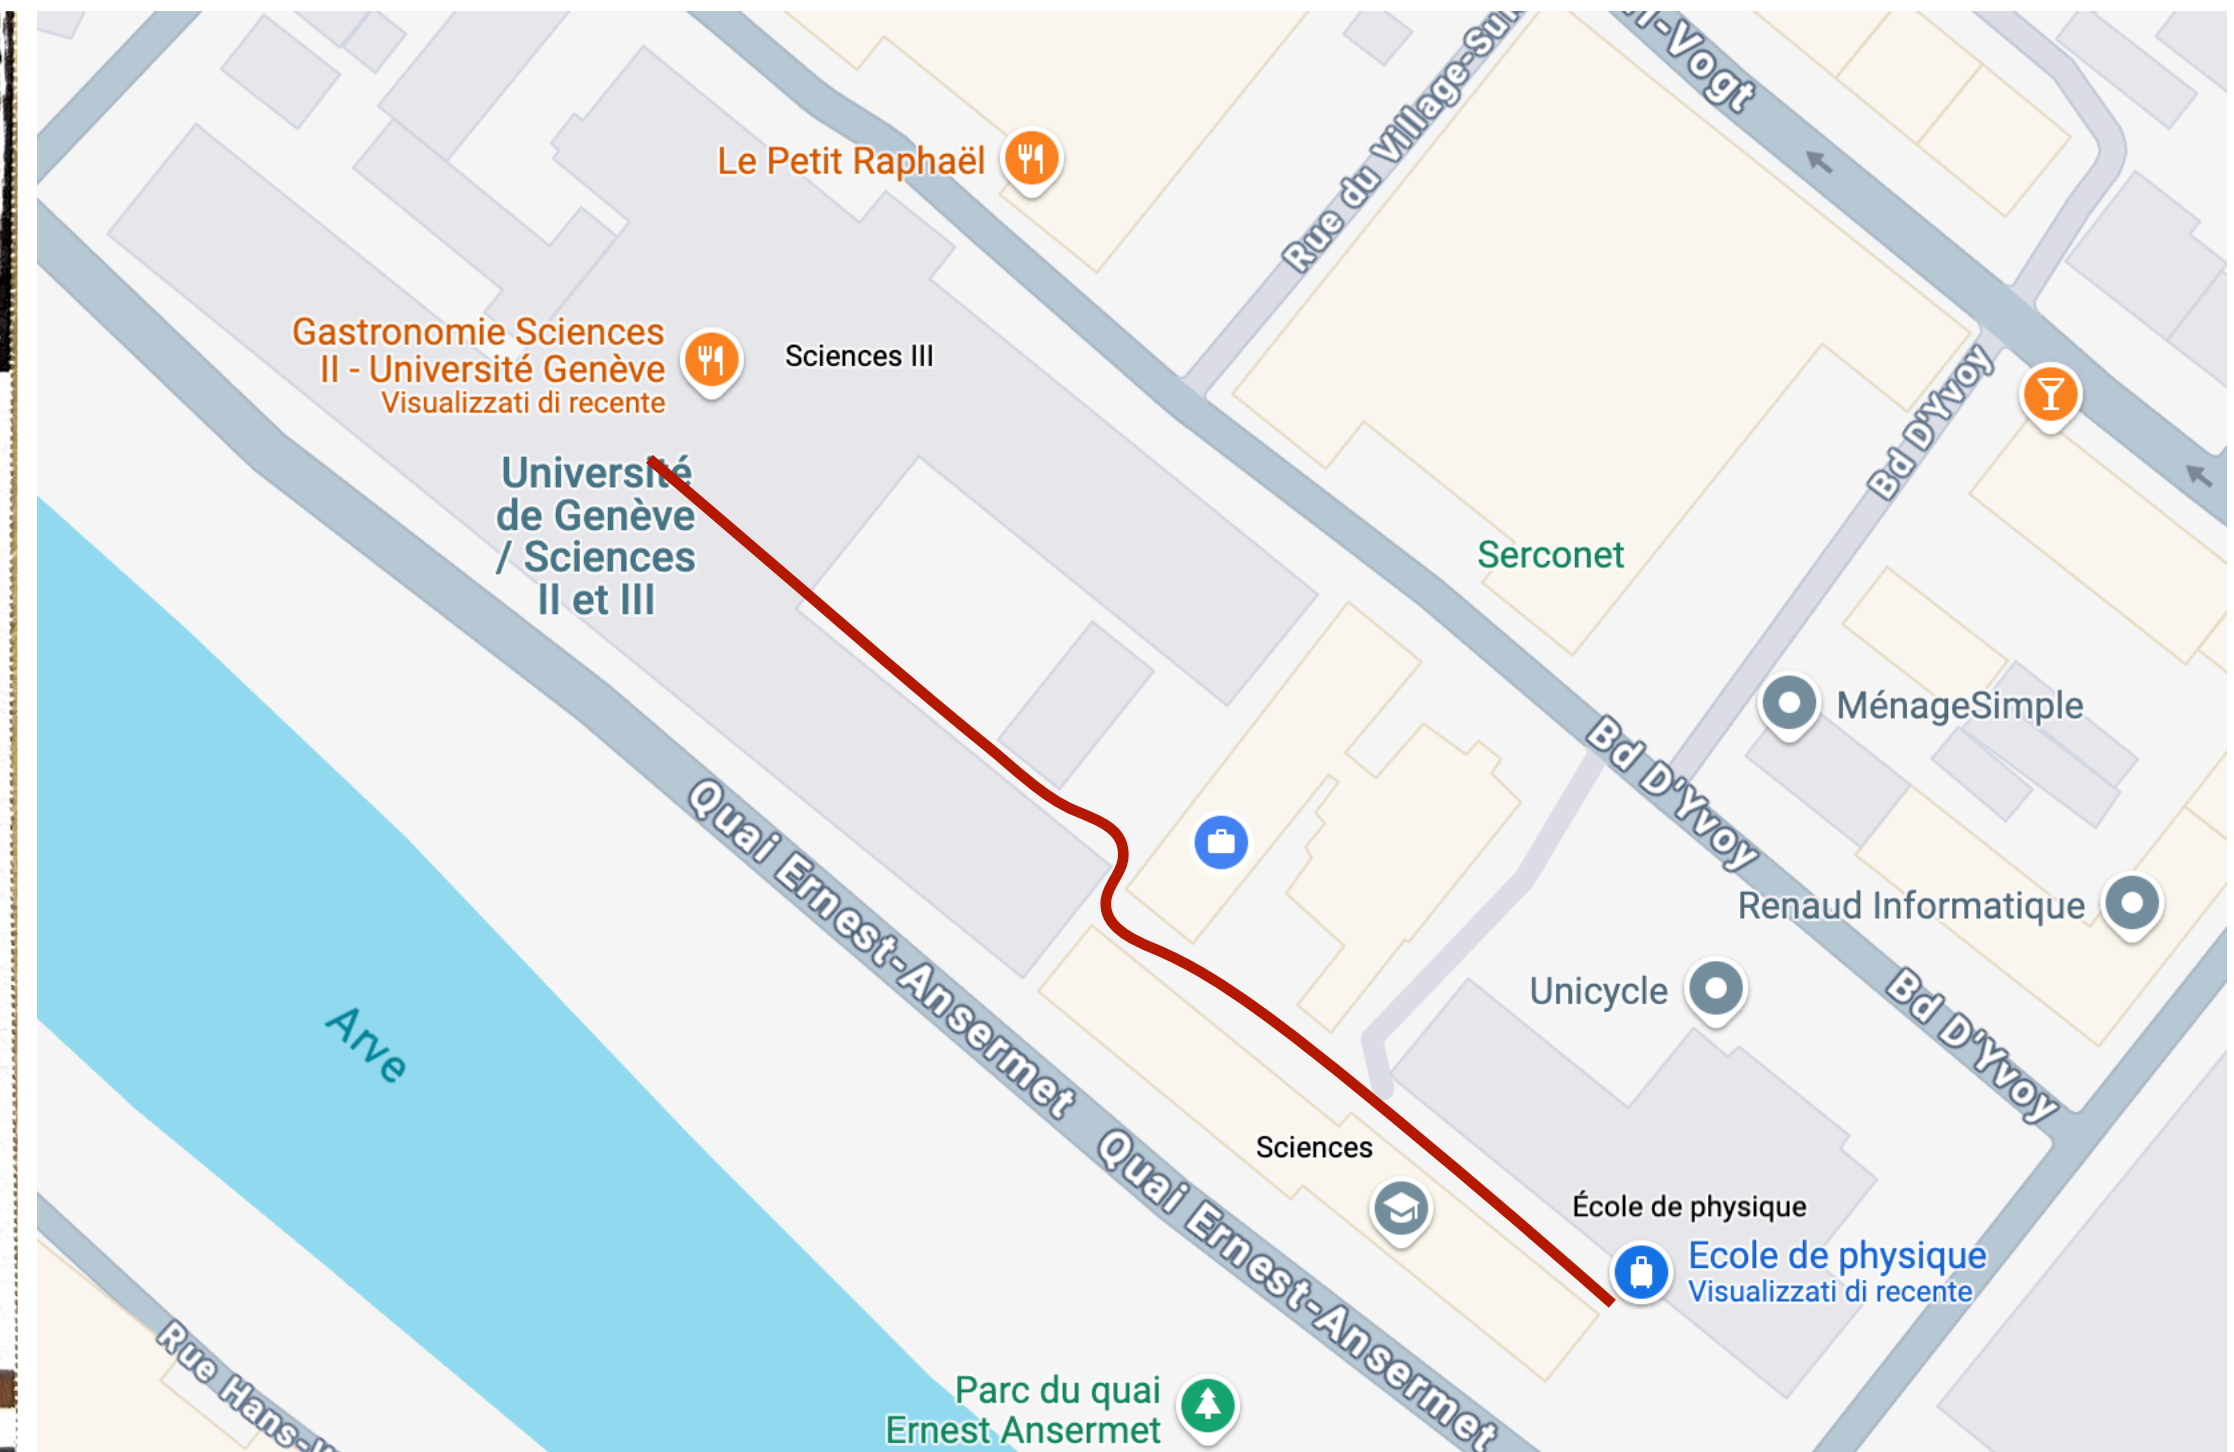

HERE

Lunch and coffee breaks

At registration, you received:

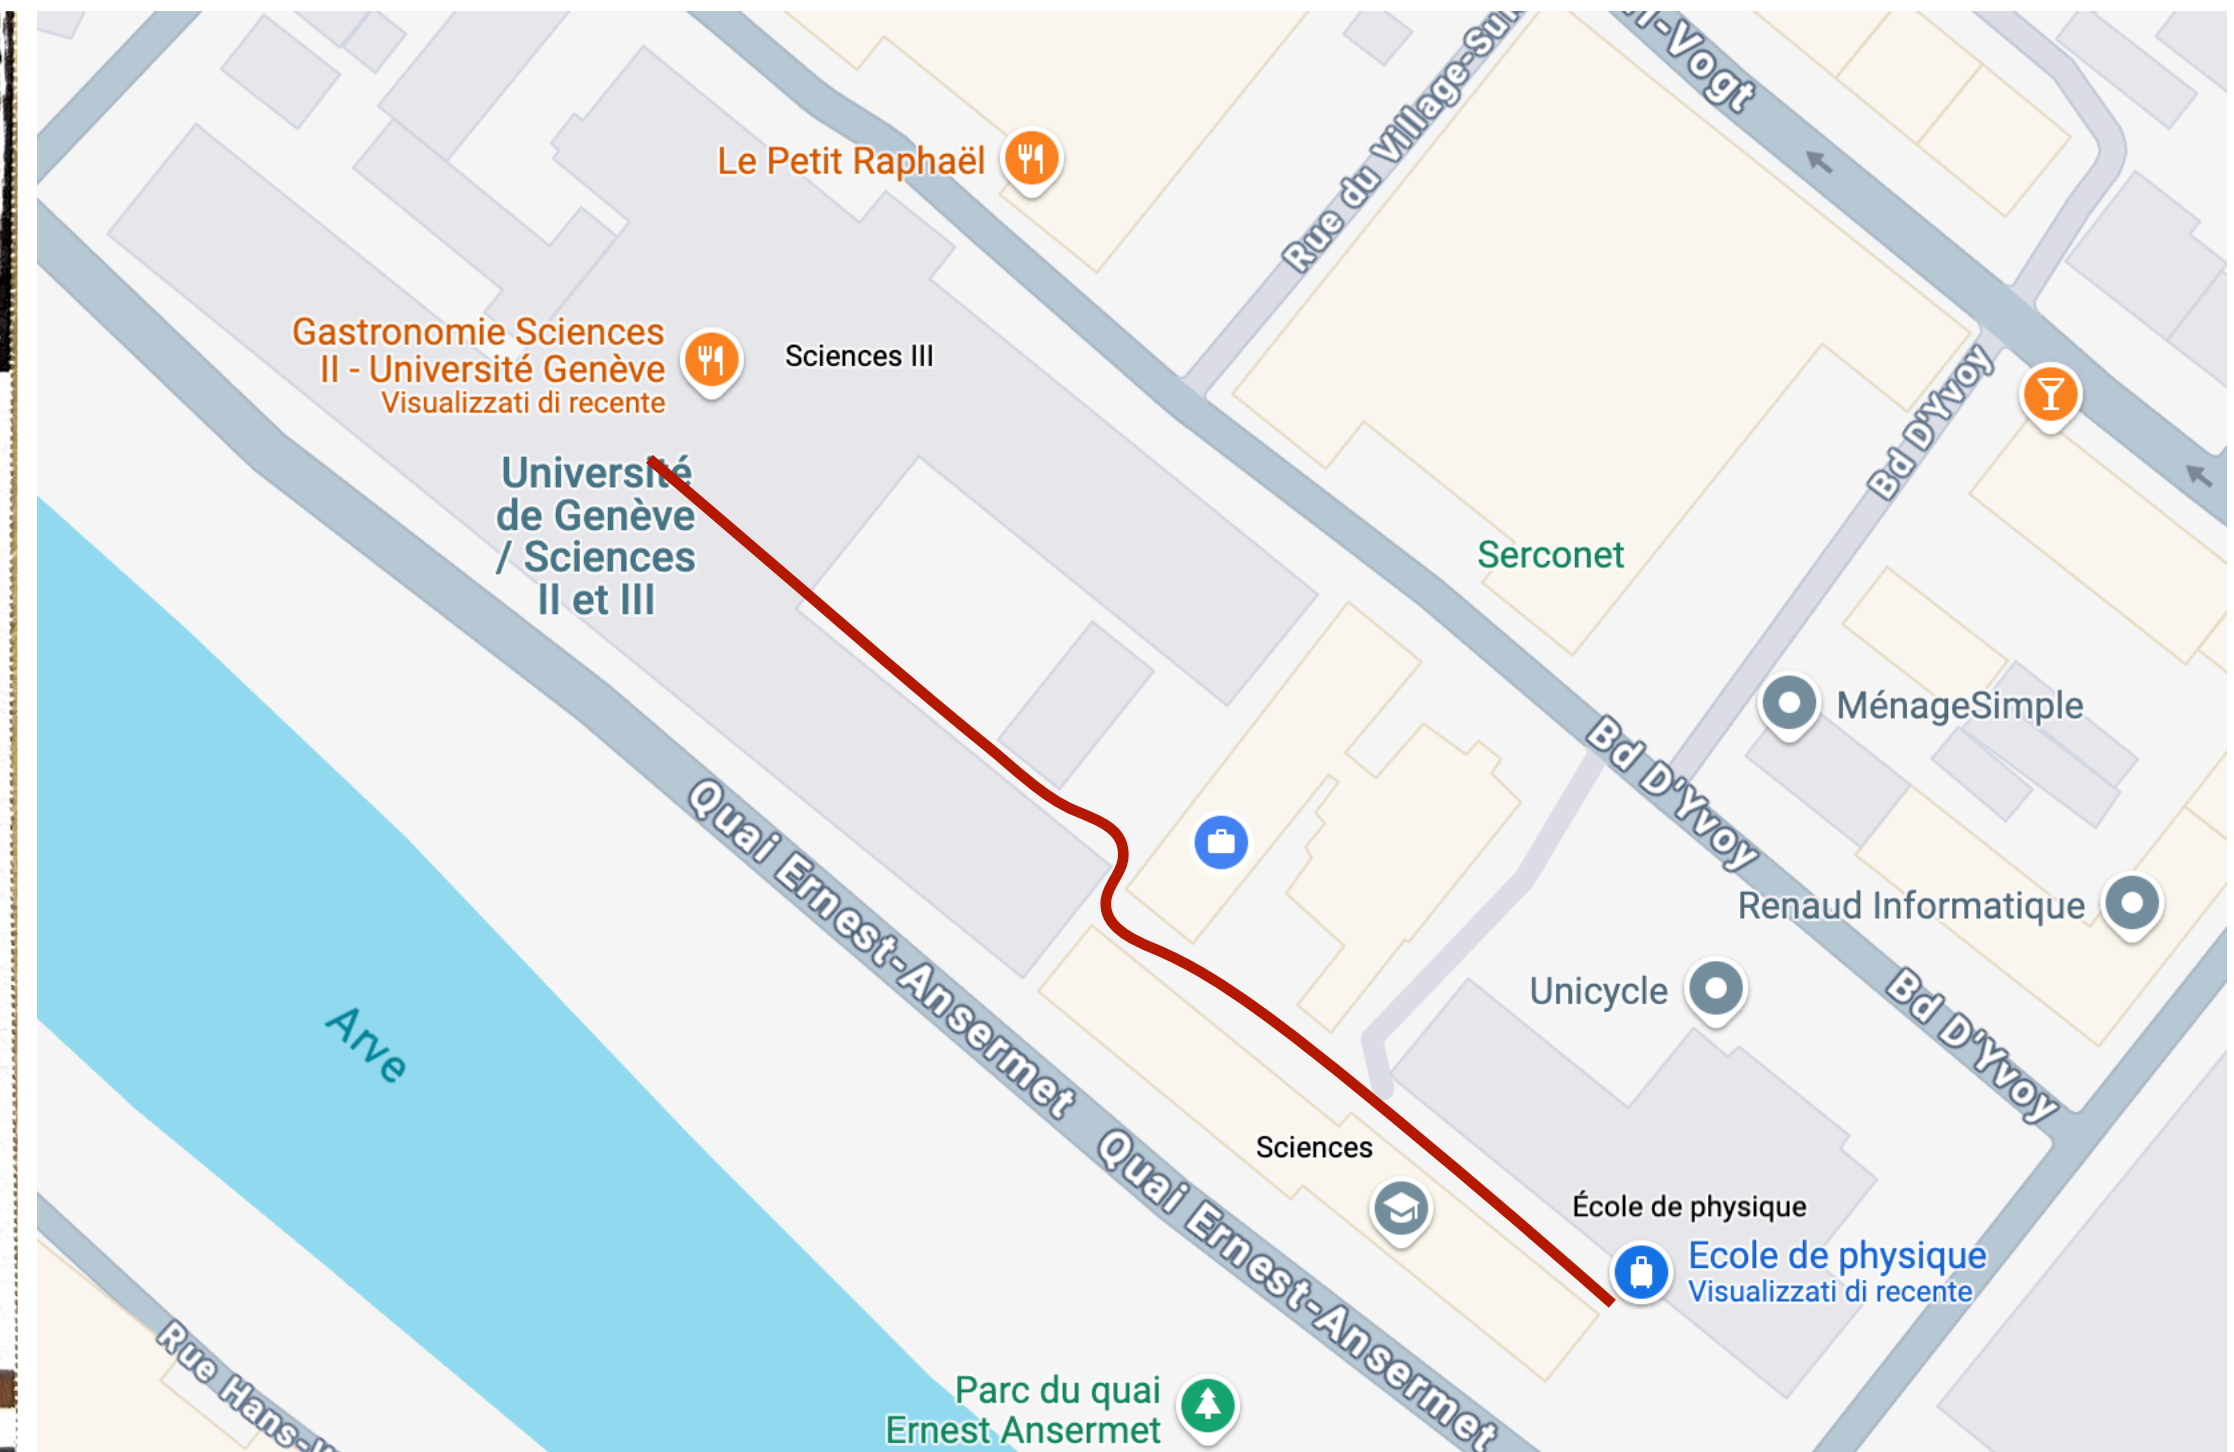

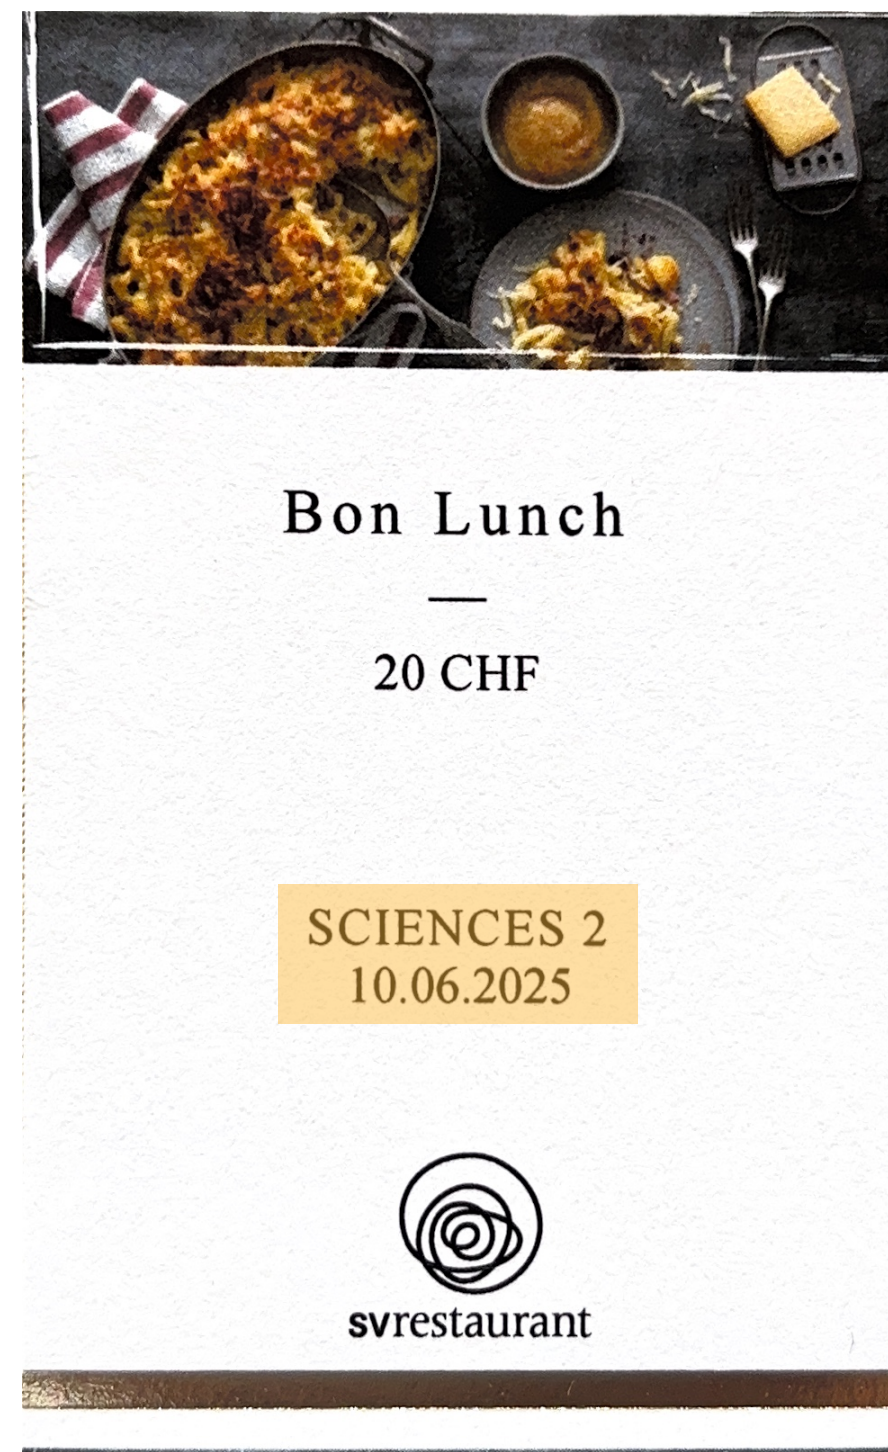

- Your cup → you can use at the coffee breaks (you can clean it on the second floor)
- Coffee breaks and apéro will be in the hall of École de Physique
- Tickets for the lunches at the canteen
- The canteen is in Science I (we will go together)
- Tickets are valid for a meal at the canteen up to 20 CHF
- **Tickets are valid only on the day printed on them!**

Conference dinner

Thursday

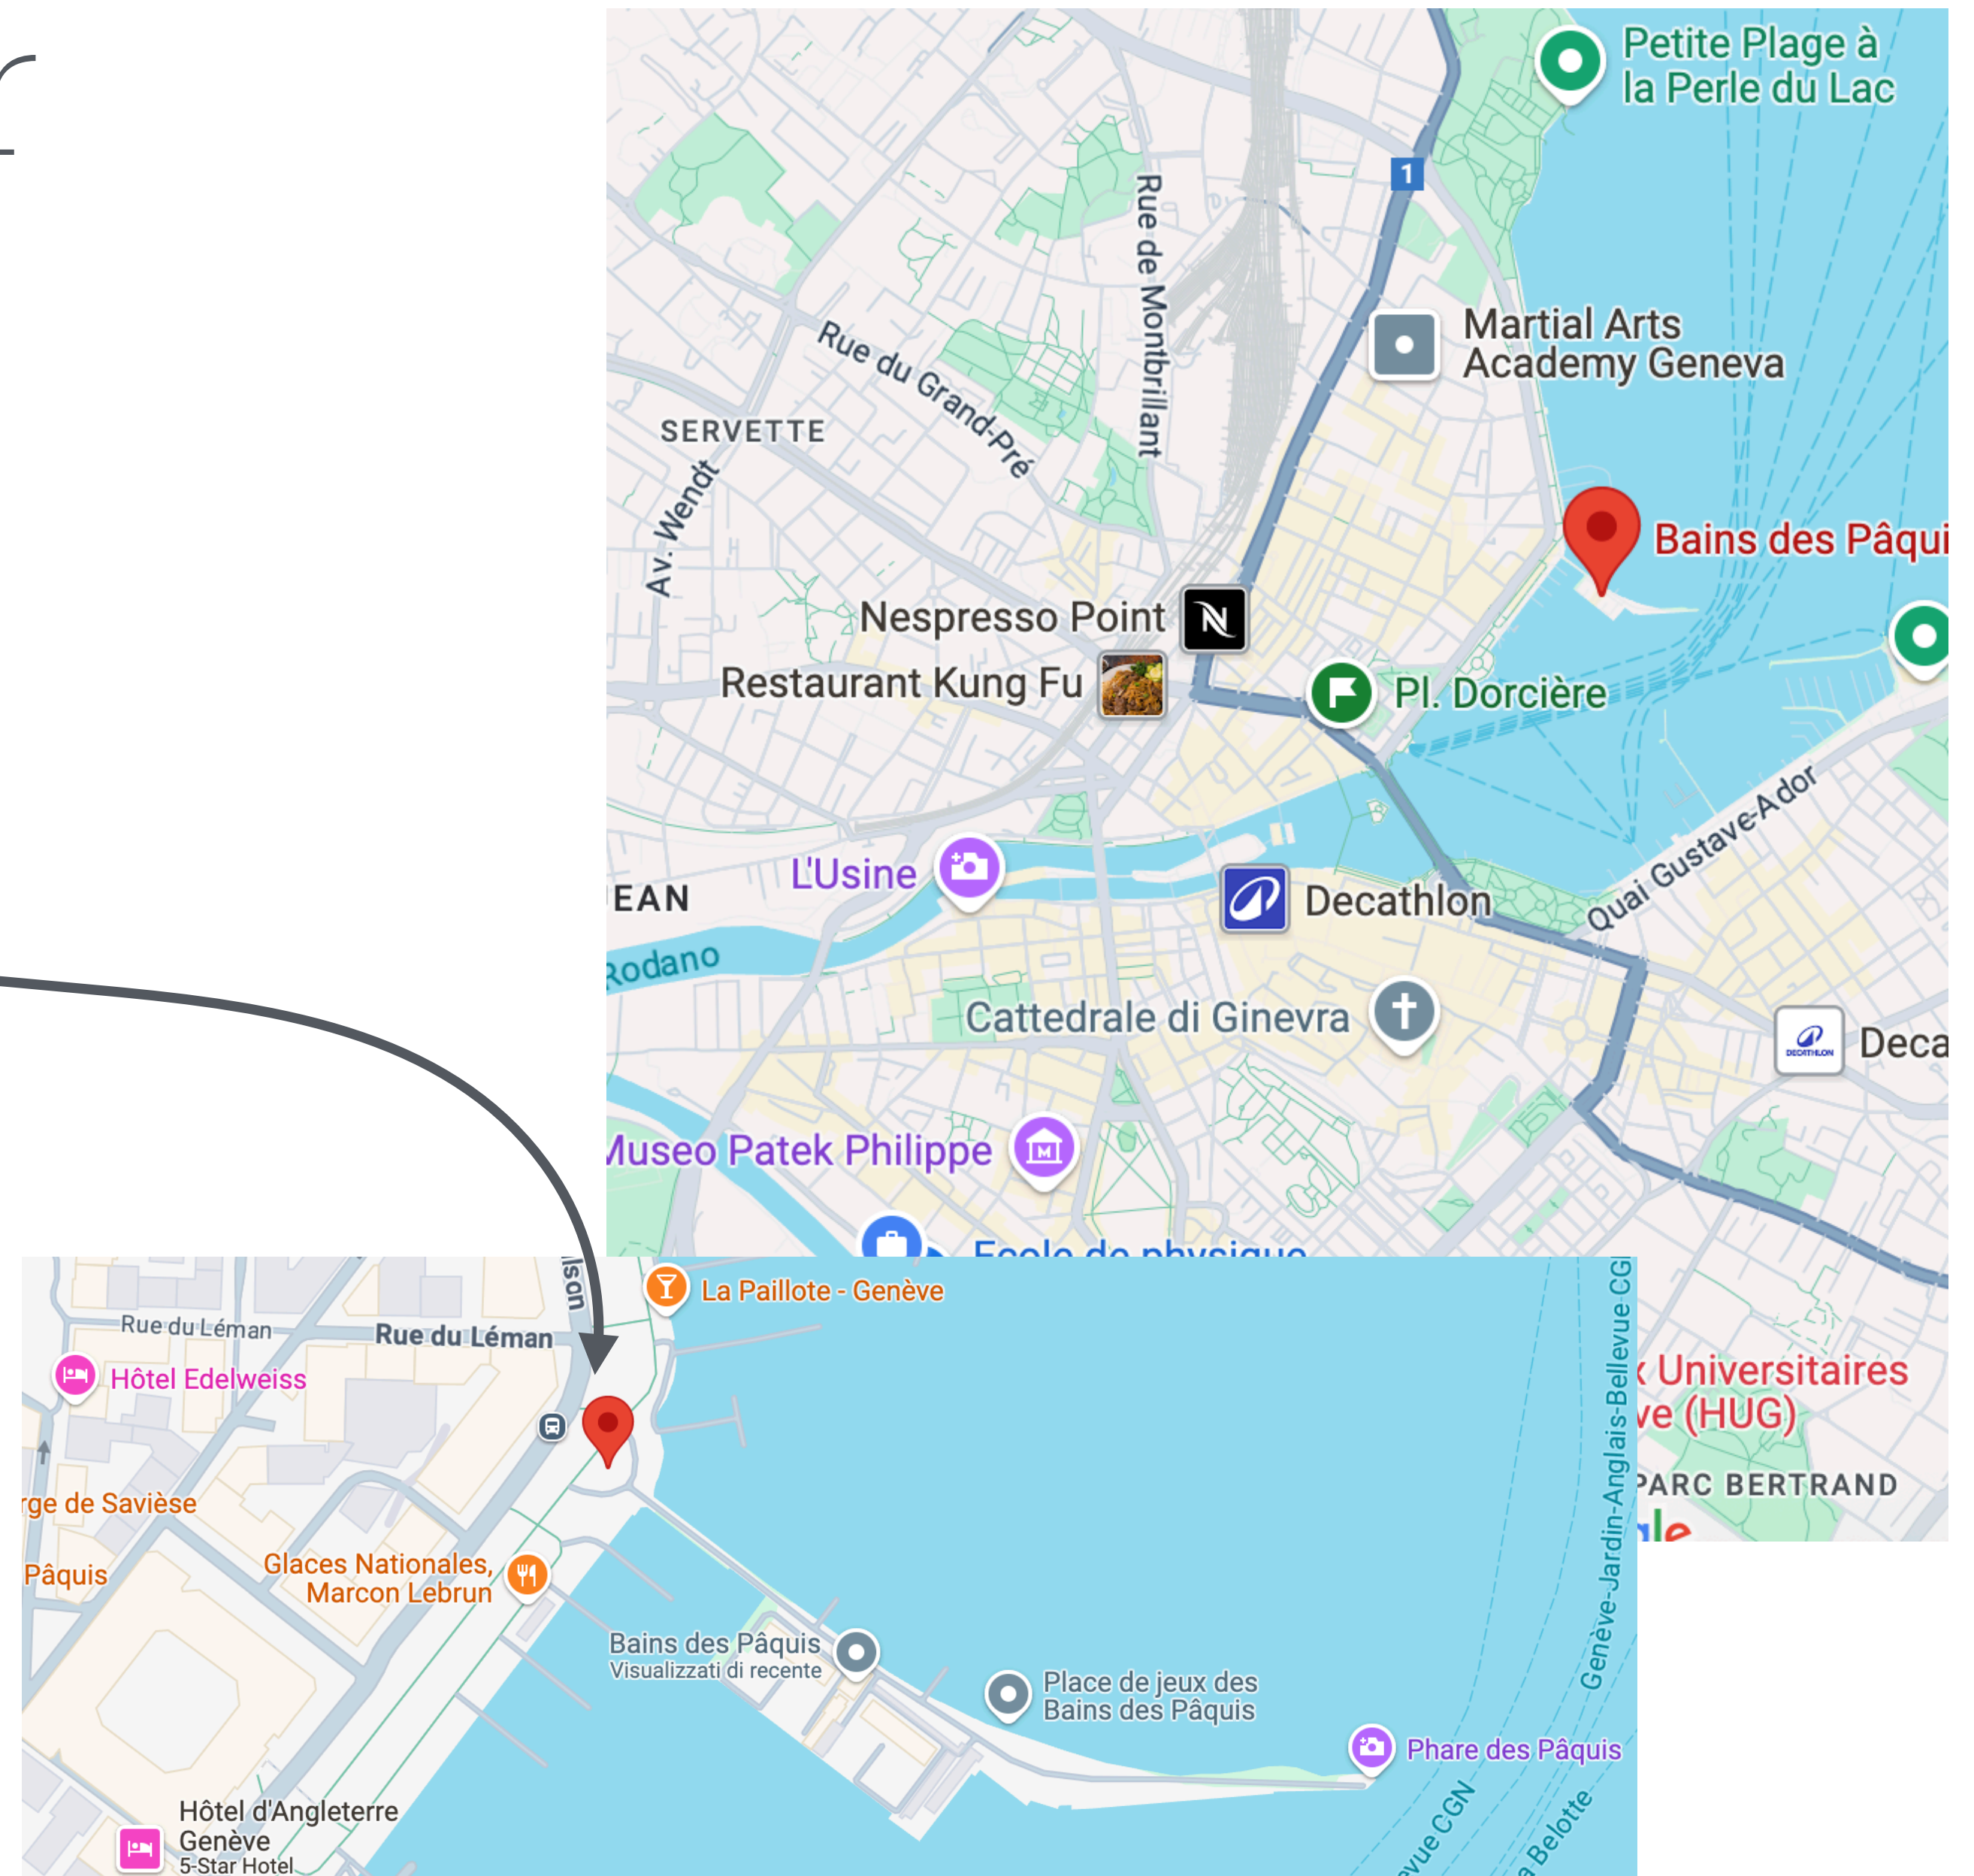

- Bains des Pâquis at 20.30
- **We meet here at 20.15**
- If you want to go for a swim before remember that the entrance costs 2 CHF, to be paid in cash (free after)

Conference dinner

Visit to CERN

Friday afternoon

- We leave together after lunch (to go)
- Or meet at **14.30** at the [Science Gateway](#)

Enjoy the fondue!
