

Thermal field theory and gravitational waves group meeting

Wednesday 28 January 2026

Group Meeting - Science I, 222 (10:00 - 12:00)

time	[id] title	presenter
10:00	[1] Limits of EFTs at finite temperature for strong phase transitions	BERNARDO, Fabio
10:30	[2] Improving bubble wall velocity predictions in electroweak phase transitions	KÄMPF, Salma
11:00	[3] Acoustic fluid perturbations in first-order phase transitions	MIDIRI, Antonino
11:30	[4] The Heat-Kernel method and the effective theory of hot QCD	REINLE, Romain Guillermo
